The bees had now taken possession of the skep and were working from their high position as if nothing unusual had happened, they were then placed on a board, carried home in triumph, and shaken into a frame hive that evening: being favoured with fine weather they did well and now the currant branch, with a new piece of comb attached is kept as a curiosity, and the hive is known as the chimney Swarm. J.M.G. A WORD ON BEES. A traveller in Spain somewhat more than a century ago speaks of a bee-keeper who had 5,000 hives; and considering the extreme rapidity with which they increase and multiply, and the abundance of food there, there is no improbability in the statement.
