

The Simple Home (Paperback)

Thus it happens that architecture, the most utilitarian of the arts, underlies all other expressions of the ideal; and of all architecture, the designing of the home brings the artist into closest touch with the life of man. A movement toward a simpler, a truer, a more vital art expression, is now taking place in California. It is a movement which involves painters and poets, composers and sculptors, and only lacks coordination to give it a significant influence upon modern life. One of the first steps in this movement, it seems to me, should be to introduce more widely the thought of the simple home - to emphasize the gospel of the simple life, to scatter broadcast the faith in simple beauty, to make prevalent the conviction that we must live art before we can create it.
