

Coincidences, Chaos and All That Math Jazz: Making Light of Weighty Ideas

By Edward B. Burger, Michael Starbird

WW Norton Co, United States, 2006. Paperback. Book Condition: New. Reprint. 204 x 140 mm. Language: English . Brand New Book. A book for the eternally curious, Coincidences fuses a professor's understanding of the hidden mathematical skeleton of the universe with the sensibility of a stand-up comedian, making life's big questions accessible and compelling. Each chapter opens with a surprising insight—not a mathematic formula, but a common observation. From there, the authors leapfrog over math and anecdote toward profound ideas about nature, art, and music. Coincidences is a book for lovers of puzzles and posers of outlandish questions, lapsed math aficionados and the formula-phobic alike.

Reviews

This ebook is definitely not simple to begin on reading but really enjoyable to read through. This really is for all who state that there had not been a worth reading. You may like how the author publish this ebook.

This book may be really worth a read through, and a lot better than other. It is really basic but excitement inside the 50 % in the pdf. I realized this pdf from my dad and i encouraged this publication to learn.
