Since 2005, the Brooke has been pioneering the integration of animal welfare science with best practice from the international development sector to build communities responsibility for sustained improvement in the welfare of their working animals. Sharing the Load documents the outcome of four years development of this process and includes field-based participatory methods and tools designed specifically for this purpose, using lively illustrations and text boxes in accessible language on the theory of development practice and animal welfare science. The tools in this manual have been developed and tested with owners of working horses, donkeys and mules and are used daily with animal-owning communities in developing countries.
